Members and Partners working together for growth

Pharmacies play a critical and growing role in healthcare delivery. With 95% of Canadians living within five kilometres of a pharmacy, they are a trusted, integral part of keeping Canadians healthy.

The Members and Partners of the Neighbourhood Pharmacy Association of Canada (Neighbourhood Pharmacies) are at the forefront of influencing positive change for our innovative, growing sector.

The Neighbourhood Pharmacy Association of Canada

Our Association exists for one reason: to make pharmacies stronger so that they can excel as Canadians' community hub for primary care and public health. And when our sector plays a strong leading role – together – we can contribute so much more to the health and well-being of Canadians from coast to coast.

Neighbourhood Pharmacies represents organizations that are on the front lines of delivering important drug therapies and other trusted pharmacy-based services to Canadians. Our members are chain, banner, long-term care, and specialty pharmacies, as well as grocery stores and mass merchandisers with pharmacies.

Our Associate Partners and Premium Associate Partners are pharmaceutical innovators, contributors to the pharmaceutical supply chain, and suppliers of products and services to the pharmacy sector.

Influence today's most critical health issues

Neighbourhood Pharmacies is a central point for dialogue and best practices on:

- Making sense of complex national and regional regulatory landscapes;
- Serving diverse communities;
- Adapting to ever-expanding pharmacy services; and
- Innovating to meet patient needs.

Together our Members and Partners are leading the retail pharmacy sector to success.

Canada's nearly 11,500 pharmacies provide convenient, trusted, and increasingly diverse services to Canadians.
